

Captain Hugh Paulsen

A "loyal" Confed Captain under the command of Admiral Tolwyn, Captain Hugh Paulsen of the third fleet was assigned to replace Captain Eisen when it became known that Eisen was trying to uncover the workings of the Black Lance. An Effective captain. Captain Paulsen follows orders with out Question.

Under his command. The TCS Lexington undertook several illegal missions into Border Worlds space to kidnap a bioconvergence chemists and space lab. Both of these missions were at the order of Admiral Tolwyn. These missions were Later revealed to be preludes to the development of the Nan-nite Bio-weapon that was later tested on outlying Border Worlds colonies.

Following the destruction of the TCS Lexington, Captain Paulsen, along with Seether, escaped the wreckage of the ship. However, Paulsen was then executed by Seether.
